Z. Teams with the most points when the schedule is completed will be the first place teams, second highest will be second, etc. In the event of tied standings, the team winning the most regular season games against the other team will be declared the higher place. If still tied, records against teams in their division will be used, starting with the highest placed team and going down through the division. If still tied, a game will be played, with two- (2) five (5) minute sudden-win overtimes if the game is tied after regulation.
AA. If the game is still tied after the sudden-win periods, a FIVE (5) player shoot-out will occur. Players on the floor at the end of overtime alternate penalty plays on the opposing goalkeeper. The team that scores the most goals is the winner. If still tied, each team selects one player not on the floor at the end of the shoot-out to take a penalty play. Play continues in this manner until one team is ahead after an equal number of players have shot. When a team has used all players, it may use any player on the team. Players may be selected in any order thereafter; however, no player may shoot a third time until every player on his/her team has shot twice, etc. Exception: When one team has used all available players, both teams may then return to select any player for the next shot.
   E.g. If Team A has only 8 players, then Team B can match this same number of players.
